

I listen to K-LOVE radio which is broadcast nationally. I just received communication from them about a low power FM station that could potentially preempt my access to listen to K-LOVE. I don't understand LPFM, and I'm writing in support of K-LOVE at their request to let you know that I would really prefer not to have my opportunity to hear Christian music transmitted by K-LOVE. As someone of the Christian faith, I enjoy hearing music that provides me a time of connection to God and Jesus through praise and worship music at any time of day rather than just hearing it at Church on Sundays. There are thousands of K-LOVE listeners that I'm sure feel the same way I do, and I believe that this is a wholesome family radio station that provides decent Christian radio with no commercials. I monetarily support K-LOVE. Whatever you do, please do not let K-LOVE be pushed by the wayside so people across the nation can no longer hear Christian music.

Thanks,
Alexa Goltz
